

# Certified ScrumMaster (CSM) Training

Certified ScrumMaster (CSM) training is a two-day learning event where a participant will dive deep into Agile's principles and Scrum method's concepts and practices. The training highlights interaction and cooperation skill. The training consists of different training elements which are lectures, conversations, rehearsals, games, simulations and videos.

## Goal

This training will give you detailed information about Scrum method and Scrum's structure. During the course participants will understand why and how this so simple process could have such a strong influence on organization. Participants will get practical experience from Scrum's different tools and practices such as product backlog, sprint backlog, daily Scrum meetings, sprint planning meeting and burndown chart.

## Target audience

This course's target audience includes those who work and are going to work in a Scrum team or very close to one. The course also suits for persons who want to understand more deeply what Scrum and agile software development mean and how they work. Target audience includes also e.g. developers, testers, determiners, project managers and IT managers.

## Course content

- Introduction to Agile principles
- Introduction to Scrum principles
- Scrum framework core elements: roles, activities, and artifacts
- Roles and responsibilities
- Product backlog and release planning
- Sprint backlog and sprint planning
- Daily Scrum meeting
- Burndown charts and project reporting
- Sprint review and retrospective
- The course consists of simulations, games, role plays and agile42 Scrum Lego City Game
- CSM certification

After the course participants have a possibility to do Certified ScrumMaster exam on the Internet and therefore receive Certified ScrumMaster certificate. Participants earn 14 PDUs from the Project Management Institute (PMI), which can be applied to Project Management Professional (PMP) and PMI-Agile Certified Practitioner (PMI-ACP) designations.

Participants also earn 14 Scrum Education Units (SEUs) toward the Certified Scrum Professional (CSP) designation from the Scrum Alliance.

The course material is in English.

## Instructor

Lasse Ziegler is a certified Scrum instructor. He has been working for over 15 years in software industry. His job titles have been among other things developer, architect and project manager. Since 2005 he has been working with agile methods such as Scrum. Since 2008 he has been training and coaching companies in Finland and worldwide in agile methods initialization.
